## ESSAY IN DEVELOPMENT

Wassarman, P. M.

Profile of a mammalian sperm receptor

1

## CONTRIBUTED PAPERS

Hallonet, M. E. R., Teillet, M.-A. and

Le Douarin, N. M.

A new approach to the development of the cerebellum provided by the quail-chick marker system

19

Charlebois, T. S., Spencer, D. H.,

Tarkington, S. K., Henry, J. J.

and Grainger, R. M.

Isolation of a chick cytokeratin cDNA clone indicative of regional specialization in early embryonic ectoderm

33

Sundin, O. H., Busse, H. G., Rogers, M. B.,

Gudas, L. J. and Eichele, G.

Region-specific expression in early chick and mouse embryos of Ghox-lab and Hox 1.6, vertebrate homeobox-containing genes related to *Drosophila labial*

47

Broadie, K. S., Sylwester, A. W., Bate, M.

and Tublitz, N. J.

Immunological, biochemical and physiological analyses of cardioacceleratory peptide 2 (CAP<sub>2</sub>) activity in the embryo of the tobacco hawkmoth *Manduca sexta*

59

Alles, A. J. and Sulik, K. K.

Retinoic acid-induced spina bifida: evidence for a pathogenetic mechanism

73

Shepherd, D. and Bate, C. M.

Spatial and temporal patterns of neurogenesis in the embryo of the locust (*Schistocerca gregaria*)

83

Loveless, W., Bellairs, R., Thorpe, S. J., Page, M.

and Feizi, T.

Developmental patterning of the carbohydrate antigen FC10.2 during early embryogenesis in the chick

97

Schnabel, R. and Schnabel, H.

Early determination in the *C. elegans* embryo: gene, *cib-1*, required to specify a set of stem-cell-like blastomeres

107

Wilson, S. W., Ross, L. S., Parrett, T.

and Easter, S. S.

The development of a simple scaffold of axon tracts in the brain of the embryonic zebrafish, *Brachydanio rerio*

121

Taylor, J. S. H.

The directed growth of retinal axons towards surgically transposed tecta in *Xenopus*; an examination of homing behaviour by retinal ganglion cell axons

147

Hill, D. P. and Strome, S.

Brief cytochalasin-induced disruption of microfilaments during a critical interval in 1-cell *C. elegans* embryos alters the partitioning of developmental instructions to the 2-cell embryo

159

Green, J. B. A., Howes, G., Symes, K., Cooke, J. and Smith, J. C.

The biological effects of XTC-MIF: quantitative comparison with *Xenopus* bFGF

173

Petitte, J. N., Clark, M. E., Liu, G.,

Verrinder Gibbins, A. M. and Etches, R. J.

Production of somatic and germline chimaeras in the chicken by transfer of early blastodermal cells

185

Mohnen, D., Eberhard, S., Marfà, V.,

Doubrava, N., Toubart, P., Gollin, D. J.,

Gruber, T. A., Nuri, W., Albersheim, P.

and Darvill, A.

The control of root, vegetative shoot and flower morphogenesis in tobacco thin cell-layer explants (TCLs)

191

Fundele, R. H., Norris, M. L., Barton, S. C.,

Fehlau, M., Howlett, S. K., Mills, W. E.

and Surani, M. A.

Temporal and spatial selection against parthenogenetic cells during development of fetal chimeras

203

Ruberte, E., Dollé, P., Krust, A., Zelent, A.,

Morris-Kay, G. and Chambon, P.

Specific spatial and temporal distribution of retinoic acid receptor gamma transcripts during mouse embryogenesis

213

# Contents

<b>Tanaka, S., Yamamoto, H., Takeuchi, S. and Takeuchi, T.</b> Melanization in albino mice transformed by introducing cloned mouse <i>tyrosinase</i> gene	223	<b>DeLorenzi, M. and Bienz, M.</b> Expression of <i>Abdominal-B</i> homeoproteins in <i>Drosophila</i> embryos	323
